I'm fascinated with the power of data and logic. Combined they offer us a way to understand and control the almost magical makings of the universe. I love to tinker as much as I love to design and construct. I consider myself a full-stack developer with a passion for user experience.

SKILLS & STRENGTHS	EXPERT	INTERMEDIATE	NOVICE
	Java	PHP	Android SDK
	AngularJS	JSP	Python
	Jersey/JAX-RS	IceFaces	Scala
	Tomcat & JBOSS	Apache ANT	C
	SQL (MySQL, Oracle)	Vanilla JavaScript	Assembly
	JQuery	OpenGL	COBOL
	HTML/CSS	Perl	Haskell
	Slick2D (GFX)	Photoshop	
	I primarily develop on Windows and am well versed in Unix based server/headless environments (ArchLinux , AIX , and Ubuntu).		
	My love of the graphic arts has led me to learn how to use Photoshop which has proven to be an invaluable skill in terms of UI and UX.		
HIGHER EDUCATION	VERMONT TECHNICAL COLLEGE		
GRADUATED	May 2015		
DEGREE	Bachelor of Science in Software Engineering		
CLASSES OF INTEREST	Algorithms & Data Structures, QA & Testing, Technical Project Management, System Analysis & Design, Parallel Programming, Artificial Intelligence		
While studying full time at VTC's Williston Campus, I worked over 20 hours per week in degree related fields. This taught me a lot about time management and has aided me immensely in handling my current responsibilities.			
BURLINGTON TECHNICAL CENTER			
GRADUATED	June 2011		
ACHIEVEMENTS	CompTIA A+ Certification (July 2010) SkillsUSA Comp. Maintaince 2010 Nationals, 38th place SkillsUSA Internetworking 2011 Nationals, 13th place		
CLASSES OF INTEREST	Computer Hardware & Maintaince, Cisco Networking		

**WORK
EXPERIENCE****SYSTEMS & SOFTWARE** (Williston, VT)PERIOD **May 2015 - Present**JOB TITLE **Software Engineer, Lead WebConnect Developer**

I currently lead the S&S WebConnect team developing a feature-rich, enterprise web-portal for utility service customers. My team strives to keep WebConnect up to modern standards by ensuring responsive design, proper accessibility, and a fluid user experience. In addition, I actively work in the back-end by adding and maintaining business logic as well as designing and working with complex database structures.

SYSTEMS & SOFTWARE (Williston, VT)PERIOD **May 2013 - May 2015 (2 years)**JOB TITLE **Software Engineer Intern**

I worked with customers and co-workers alike to maintain S&S's WebConnect product by implementing important features and resolving critical issues. While doing so I was an integral member of many projects ranging from third-party/vendor conversions and integrations to massive data refactorizations.

ROSE COMPUTER TECHNOLOGY SERVICES (South Burlington, VT)PERIOD **February 2012 - May 2013 (15 months)**JOB TITLE **Systems Engineer**

I managed small to medium sized business computer networks and domains. Frequently worked one-on-one with end-users to resolve their issues.

BURLINGTON SCHOOL DISTRICT (Burlington, VT)PERIOD **June 2011 - October 2011 (5 months)**JOB TITLE **Webmaster, Front End Developer**

I led the district in refactoring their legacy web system to a state of the art CMS. I also designed and fabricated automated web processes and applications.

PERSONAL**PROJECTS**

You can find some of my personal projects on fisherevans.com/projects. My favorite being my college cap-stone project: SmartShift, a web-based scheduling assistant that works for both the employer and the employee.

HOBBIESTHE SUNNY DAYS **Hiking, swimming, frisbee, aimless walks, local culture**WET AND GRAY **Pool, board games, puzzles, physical & virtual tinkering**
