I'm fascinated with the power of data and logic. Combined they offer us mortals a way to control the universe and make sense of the things that don't make sense. I love to tinker as much as I love to design and construct. I consider myself a full-stack developer with a passion for user experience.

SKILLS & STRENGTHS	EXPERT	INTERMEDIATE	NOVICE
	Java	PHP	Android SDK
	AngularJS	JSP	Python
	Jersey/JAX-RS	IceFaces	Scala
	Tomcat & JBOSS	Apache ANT	C
	SQL (MySQL, Oracle)	Vanilla JavaScript	Assembly
	JQuery	OpenGL	COBOL
	HTML/CSS	Perl	Haskell
	Slick2D (GFX)	Photoshop	

I primarily develop on Windows and am well-versed in Unix based server environments (**ArchLinux**, **AIX**, and **Ubuntu**).

HIGHER EDUCATION

VERMONT TECHNICAL COLLEGE

GRADUATED	May 2015
DEGREE	Bachelor of Science in Software Engineering
CLASSES OF INTEREST	Algorithms & Data Structures, QA & Testing, Technical Project Management, System Analysis & Design, Parallel Programming, Artificial Intelligence

While studying full time at VTC's Williston Campus, I worked over 20 hours per week in degree related fields. This taught me a lot about time management and has aided me immensely in handling my current responsibilities.

BURLINGTON TECHNICAL CENTER

GRADUATED	June 2011
ACHIEVEMENTS	CompTIA A+ Certification (July 2010) SkillsUSA Comp. Maintaince 2010 Nationals, 38th place SkillsUSA Internetworking 2011 Nationals, 13th place
CLASSES OF INTEREST	Computer Hardware & Maintaince, Cisco Networking

**WORK
EXPERIENCE****SYSTEMS & SOFTWARE****PERIOD** May 2015 - Present**JOB TITLE** Software Engineer, Lead WebConnect Developer

I currently lead the S&S's web portal (WebConnect) team in developing new features. Part of my work is enhancing an older product by bringing it up to modern standards by implementing responsive design, proper accessibility, and an updated design and experience.

SYSTEMS & SOFTWARE**PERIOD** May 2013 - May 2015 (2 years)**JOB TITLE** Software Engineer Intern

I provided utility service companies in Northern America with an innovative and intuitive web portal (WebConnect) for their customers. While doing so I worked on many projects involving third parties and customers while implementing important features and resolving critical issues.

ROSE COMPUTER TECHNOLOGY SERVICES**PERIOD** February 2012 - May 2013 (15 months)**JOB TITLE** Systems Engineer

I managed small to medium sized business computer networks and domains. Frequently worked one-on-one with end-users to resolve their issues.

BURLINGTON SCHOOL DISTRICT**PERIOD** June 2011 - October 2011 (5 months)**JOB TITLE** Webmaster, Front End Developer

I lead the district in refactoring their legacy web system to a state of the art CMS. I also designed and fabricated automated web processes and applications.
