I'm fascinated with the power of data and logic. Combined they offer us a way to understand and control the almost magical makings of the universe. I love to tinker as much as I love to design and construct. I consider myself a full-stack developer with a passion for user experience.

SKILLS & STRENGTHS	EXPERT	INTERMEDIATE	NOVICE
	AngularJS	PHP	Android SDK
	HTML/CSS	JSP	Python
	Java	IceFaces	Scala
	Jersey/JAX-RS	Apache ANT	C
	Hibernate	Vanilla JavaScript	Assembly
	SQL (MySQL, Oracle)	JQuery	COBOL
	Tomcat & JBOSS	OpenGL	Haskell
	Slick2D (GFX)	Perl	
	I primarily develop on Windows and am well versed in Unix based server/headless environments (ArchLinux , AIX , and Ubuntu).		
My love of the graphic arts has led me to learn how to use Photoshop which has proven to be an invaluable skill in terms of UI and UX.			
EDUCATION	VERMONT TECHNICAL COLLEGE		
	GRADUATED	May 2015	
	DEGREE	Bachelor of Science in Software Engineering	
	CLASSES OF INTEREST	Algorithms & Data Structures, QA & Testing, Technical Project Management, System Analysis & Design, Parallel Programming, Artificial Intelligence, Computer Graphics, System Administration, Physical Simulations	
	BURLINGTON TECHNICAL CENTER		
	GRADUATED	June 2011	
	HONORS	Highest Acheiving Student (2010, 2011)	
	ACHIEVEMENTS	CompTIA A+ Certification (July 2010) SkillsUSA Comp. Maintaince 2010 Nationals, 38th place SkillsUSA Internetworking 2011 Nationals, 13th place	
	CLASSES OF INTEREST	Computer Hardware & Maintaince, Cisco Networking	

**WORK
EXPERIENCE****SYSTEMS & SOFTWARE** (Williston, VT)**JOB TITLE** **Software Engineer, Lead WebConnect Developer****PERIOD** **May 2015 - Present**

I currently lead the S&S WebConnect team developing a feature-rich, enterprise web-portal for utility service customers. My team strives to keep WebConnect up to modern standards by ensuring responsive design, proper accessibility, and a fluid user experience. In addition, I actively work in the back-end by adding and maintaining business logic as well as designing and working with complex database structures.

JOB TITLE **Software Engineer Intern****PERIOD** **May 2013 - May 2015 (2 years)**

I worked with customers and co-workers alike to maintain S&S's WebConnect product by implementing important features and resolving critical issues. I worked on many projects ranging from third-party/vendor conversions and integrations to massive data refactorizations.

ROSE COMPUTER TECHNOLOGY SERVICES (South Burlington, VT)**JOB TITLE** **Systems Engineer****PERIOD** **February 2012 - May 2013 (15 months)**

I managed small to medium sized business computer networks and domains. Frequently worked one-on-one with end-users to resolve their issues.

BURLINGTON SCHOOL DISTRICT (Burlington, VT)**JOB TITLE** **Webmaster, Front End Developer****PERIOD** **June 2011 - October 2011 (5 months)**

I led the district in refactoring their legacy web system to a state of the art CMS. I also designed and fabricated automated web processes and applications.

PERSONAL**PROJECTS**

You can find some of my personal projects here: fisherevans.com/projects. My favorite being my college cap-stone project: SmartShift, a web-based scheduling assistant that works for both the employer and the employee.

HOBBIES

In addition to my strange obsession of "programming", I also like to get outside and enjoy the world. I could list hundreds, but to name a few...

THE SUNNY DAYS **Hiking, swimming, frisbee, aimless walks, local culture****WET AND GRAY** **Pool, board games, puzzles, physical & virtual tinkering**
